= \$25

Read the following paragraph.

Mark earns \$2,000 every month in his job as a shoe salesman. A total of \$154 is withheld from each paycheck for taxes, so Mark's take-home pay is \$1,846. Each month, Mark pays \$100 in taxes for his home. He also pays about \$50 per month for taxes on items he buys at the store. Every year, Mark pays \$750 in taxes to the federal government.

Select and record a word from the word bank to describe each amount.

Word Bank		
net income	Income tax	Property tax
Payroll tax	Sales tax	gross income

\$2,000 gross income
 \$154 payroll tax
 \$1,846 net income

\$100 property tax
 \$50 sales tax
 \$750 income tax

17 Jerry's grandmother worked in a department store for many years. Now that she has retired, she receives a monthly Social Security check. Jerry's grandmother paid a tax during her working years that helped fund Social Security. Which is the tax?

- A** Payroll tax
- B** Sales tax
- C** Property tax
- D** All of these

18 Arturo earned \$100 last month from his afternoon babysitting job. The table below shows Arturo's budget.

Arturo's Budget		
Description	Income (+)	Expense (-)
Paycheck	\$100.00	
Movie tickets		\$15.00
School lunch card		\$70.00
Gum		\$ 5.00
Trading cards		\$10.00

- A** Arturo's budget is not balanced because his expenses exceed his income.
- B** Arturo will have a surplus because he plans to spend less than he earned.
- C** Arturo's budget is not balanced because he will spend all of his money.
- D** Arturo's budget is balanced because his expenses equal his income.
